

## South Korea

In light of the Covid pandemic, travel rules to the Republic of South Korea are as under:

- i. Mandatory Covid-19 PCR test done within 72 hours before boarding for South Korea.
- ii. As South Korea does not approve of vaccination certificates from any other country, guests/ travelers will have to undergo a mandatory Covid-19 test arranged free-of-cost by the South Korean government upon landing. A mandatory 14-day home quarantine period follows the Covid-19 test.
- iii. If, the guest/traveller has immediate family (read spouse, parents) in South Korea, only in such cases, the Covishield vaccine shall be considered and such guest/traveller who has received both the doses of the Covishield vaccine can apply for a quarantine exemption certificate through us.
