10	390410	Poly (vinyl chloride), not mixed with any other substances	22	30,491,705	2.6%

\*Data shown above are the most recent data available as of February, 2024.

**d) Significant trends in trade and investment:**

<b>S. No.</b>	<b>Category</b>	<b>Details of significant trends (Max.200 words)</b>	<b>Analysis (Max.200 words)</b>
1.	Trade	<p>The Ministry of Trade, Industry and Energy (MOTIE) announced on February 21 that the value of Korea's automobile exports for the month of January grew 24.7 % year-on-year, reaching an all-time high of USD 6.2 billion for January. The trade balance stood at \$5.4 billion, ranking automobiles first among export items in terms of trade surplus and as the largest driver behind Korea's overall January trade surplus.</p>	<p>The number of automobiles exported in January 2024 amounts to 245,255 units, a first to enter the 240,000 units threshold in nine years since January 2015. The automobile production volume achieved 358,423 units in January 2024, up 16.9 percent. The growth can be attributed to the base effect from last year and the increased number of working days. Meanwhile, production trends for January over the last five years indicate that automobile production has emerged to pre-COVID levels, due to the normalization of the supply chain and parts supply.</p> <p>Domestic sales of automobiles contracted 0.4 %year-on-year to 116,152 units in January 2024. Homegrown models saw a 2.5 %growth in demand and sold 103,057 units in Korea, whereas foreign models declined by 18.8 %and sold 13,095 units. In terms of passenger car sales, consumer preference for SUVs was prominent.</p> <p>This January, MOTIE announced the eco-friendly mobility regulatory innovation measures for removing obstacles to corporate activities and stimulating automotive investment. The Ministry plans to complete 33 of</p>

		the 43 project tasks by the end of this year and also intends to strengthen support for the automotive parts industry through the “Future Car Parts Industry Act” scheduled to take effect this July.
2.	Investment	Total investment made by Korea to India amounted to \$355.96 million during January-September 2023, latest data as of February 2024. Majority of the investment came from manufacturing. Cumulative investment since 1980 stands at \$8.13 billion.

**e) Number of Korean companies in India and investment value:**

<b>Industry</b>	<b>Number of Korean Companies in India (January-September 2023)</b>	<b>Invested Amount (Unit: USD Million)</b>
<b>Total</b>	54	<b>355.96</b> (356.0 million)
Financial and insurance activities	3	176
Manufacturing	22	127
Information and communications	6	37
Business facilities management and business support services; rental and leasing activities	1	7
Wholesale and retail trade	8	4
Accommodation and food service activities	1	2
Professional, scientific and technical activities	8	1
Transportation and storage	3	1
Real estate activities	1	0
Construction	1	0
Membership organizations, repair and other personal services	0	0
<b>Total (Cumulative from 1980)</b>	<b>1,473</b>	<b>8,126</b>

		(8.13 billion)
--	--	----------------

\*Data shown above are the most recent data available as of February 2024

(Source: Korea Exim Bank <https://stats.koreaexim.go.kr/en/enMain.do>)

**f) Investment in USD \$:**

- Total FDI up to September 2023: 8.13 billion
- 356 million in 2023 (January-September)
- 371 million in 2022
- 343 million in 2021
- 625 million in 2020
- 453 million in 2019
- 1,072 million in 2018
- 516 million in 2017
- 337 million in 2016
- 365 million in 2015
- 337 million in 2014
- 347 million in 2013
- 323 million in 2012
- 457 million in 2011
- 199 million in 2010
- 243 million in 2009]
- \*Data shown above are the most recent data available as of February 2024

(Source: Korea Exim Bank <https://stats.koreaexim.go.kr/en/enMain.do>)

Note: EXIM Bank, Korea does not maintain data in the suggested format. However, as per available data up to February 2024, Korea invested USD 356 million in India from January – September 2023.
