OBJECTIVES

Mediation is an art as well as a scientific process. The success of the Mediation process depends upon the ability and skill of the Mediator in collaboratively engaging the parties in this process so as to create an environment that encourages a meaningful dialogue focused on understanding each other.

The intent and content of this workshop is to give the Participants an opportunity to hone some of the skills introduced to them in the Basic training, supported by fresher perspectives, through presentations and exercises. This workshop would also be a good opportunity, time-permitting, for participants to seek pointers to address some of the issues faced by them in their mediations.

The Workshop will start with a Refresher of some of the essential skills required in a mediation process and will then proceed towards an engaging conversation surrounding two selected skill-sets.
