

Online Seminar : Reshaping Agriculture Markets through Reforms

Tuesday, June 23, 2020 from 4.00 p.m. to 5.30pm

Dear Sir/Madam,

Although agriculture accounts for nearly 16 percent of the country's GDP and employs more than 50 percent of the workforce, it operates under multiple challenges in production, processing, marketing and trade.

In furtherance of the initiative to double farmers' income, the government recently announced a series of major reforms for the agri-markets. Amendment to the Essential Commodities Act, encouraging private markets in addition to APMC and legal framework for contract farming are some key reforms intended to benefit all stakeholders in general and farmers in particular. Efficient implementation is crucial for the success of reforms.
