

Online Seminar on “Investment in Gold Options”
Wednesday, November 11, 2020 from 4.00 pm to 5.30 pm

Dear Sir/ Madam,

In the coming years, India’s economic growth will be driven by commodity production, processing, consumption and trade. By their very nature, commodity markets are volatile. Therefore it is necessary to manage the price risks through hedging which is an insurance against adverse price movement.

Commodities are now an accepted asset class in which investors are interested. Often, investment in commodities has outperformed investment in other asset classes such as equities. Gold and silver are classic examples. As you know, gold and silver prices have risen phenomenally in recent times. Many savvy investors have benefited from the price performance. Options Contract in Gold offers an excellent investment opportunity for investors or acts as insurance for those in physical bullion business.

To advance the idea of investment in gold through Options contracts, IMC Chamber of Commerce and Industry and BSE (India’s oldest exchange with an illustrious track-record) are jointly organizing an Online Seminar on: ‘*Gold Options Contract*’ as an excellent investment / insurance tool.

The program is intended to educate investor about the dynamics of the bullion market and benefits of trading Gold Options contracts so that their decisions are well informed and scientific. It will also highlight investment opportunities.

The virtual meeting will be on Zoom. There is NO Participation Fee; but registration is necessary. On receiving a registration request, VC details will be provided. For registrations and other details please write to Ms. Anita Naik at: anita.naik@imcnet.org OR visit IMC website: <https://www.imcnet.org/events-918>

We do hope you will be able to seize the opportunity and participate on November 11, 2020 at 4.00 pm. It will be a knowledge-enriching experience.

Ajit Mangrulkar
Director General
