Commodity Market Fundamentals Forum: Bullion and Base Metals

Tuesday October 27, 2020 from 4.00 p.m. to 5.30pm.

Dear Sir/ Madam,

There are several drivers of the commodities market, seemingly disparate but connected in a way that they feed on each other. Their combined impact is what drives commodity prices. A sound understanding of the market fundamentals is necessary to be able to read the market signals reasonably correctly; and thereby make informed trading and investment decisions. This is especially important in the present times characterised by geopolitical uncertainties, growth concerns, currency gyrations, volatile and so on.

There is, therefore, a perceived need to educate the stakeholder in the commodity value chain (producers, processors, exporters, importers, traders) about the dynamics of the market from a fundamental perspective so that their buy / sell / trade / hedge decisions are well informed and scientific. In this background, IMC Chamber of Commerce, and Industry in association with MCX- IPF is organizing an Online seminar called: "Commodity Market Fundamentals Forum" covering Base Metals and Bullion Markets on Tuesday, October 27, 2020 from 4.00 pm to 5.30 pm.
